Manuscript Number:	Ms_AJRN_83182
Title of the Manuscript:	Acute Kidney Injury Due To Wild Mushroom Consumption: Hemodialysis And Ozonotherapy Combination A Therapeutic Asset (About One Case)
Type of the Article	Case study

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrn.com/index.php/AJRN/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Some couple of words were coloured in red and added a mid-line. They should be erased because: <ul style="list-style-type: none">- Some are wrongly used- Others are misspelled words	
<u>Minor</u> REVISION comments	Some commas were added – light green colour. Some spaces were erased. The References were adjusted because they were taken from the Internet, without checking what it became in this text.	
<u>Optional/General</u> comments	A bit careless written article. At the phrase with "general condition", the author should choose the degree of physical status. I suggested "critical but stable". As for WHO classification, at least one reference to be added (about the degrees of classification), and to check the writing: either III or 3.	

PART 2:

	<u>Reviewer's comment</u>	<u>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</u>
<u>Are there ethical issues in this manuscript?</u>	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
