Title of the Manuscript:	TESTICULAR TOXICITY CUM ACTIONS OF MORINGA OLEIFERA SEEDS EXTRACT FOLLOWING NUTMEG ADMINISTRATION
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajarr.com/index.php/AJARR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. The methodology of the study is suitable for academic publication. 2. It is necessary to add information about whether ethical permission has been obtained in order to conduct the study. 3. It would be more appropriate to clearly state that the extracts of the plants mentioned in the summary of the study were used. 4. Punctuation before or after the FIG abbreviation should be corrected in the explanations section below the histological figures. 5. References should be rewritten in accordance with a certain rule.	
Minor REVISION comments	It may be eligible for publication after the above-mentioned edits.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
