PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	<ul style="list-style-type: none">- the proposition - EGD findings showed mild erythematous mucosal change but the duodenum was unremarkable. is ambiguous - to be reformulated.- the references are a bit old; the most recent is from 2010	
<u>Optional/General</u> comments	<p>It is a simple but interesting case.</p> <p>The authors warn of this possible etiology in cases of acute pancreatitis in which we do not find an obvious cause</p> <p>However, I did not understand how the authors interpreted ascites in this case</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
