PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<b>abstract</b> ok <b>introduction</b> ok * I suggest including the objectives in a paragraph at the end of the introduction. "The objectives of this study are to isolate and identify microorganisms caught in the two main fisheries of the Ado-Ekiti Metropolis and to make useful recommendations based on the results of the study." <b>Material and Methods</b> ok <b>Results and Discussion</b> I suggest not separating discussion results and simply including the Table when it is cited in the text. The text is already written in the discussion part. The discussion is very poor and compared to very few other articles on the topic. You will have to enrich the discussion further. <b>Conclusion</b> ok	
Optional/General comments	The manuscript must be placed in the journal's rules	

PART 2:
