### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrru.com/index.php/AJRRU/editorial-policy>)

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<ul style="list-style-type: none"><li>- The use of first, second and third column is misleading. It is better to use first, second and third fraction.</li><li>- The column does not add to the research point.</li><li>- The plants and test microorganism are the only known data in the current research, otherwise, the antimicrobial agent, concentration and its mechanism of action are unknown.</li><li>- The sentences under the title "2.6 Determination of minimum inhibitory concentrations" are interfering.</li></ul>	
<b><u>Minor</u></b> REVISION comments	<ul style="list-style-type: none"><li>- The style of references writing is not uniform in the text.</li></ul>	
<b><u>Optional/General</u></b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
