PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	No	
<u>Minor</u> REVISION comments	No	
<u>Optional/General</u> comments	The manuscript is well written and is very clear. The author have performed well in collecting the samples as well as analysing the data. I congratulate the writers for their keen interest in the prediction and identification of the problem. As a whole the work performed is very good. Personally, I would like to know that whether any children have affected with methaemoglobinaemia in the region of Fako due to increased nitrate concentration.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
