PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	**In this paper, Hashnet Consensus algorithm basing on Proof-of-Authority (POA) was proposed to ensure the trust. Later, they proposed improved Redundancy Reduced Gossip algorithm, which minimizes the traffic load while maintaining the same probability of delivery successful.** 1) Experimental results or simulations results are not presented in this study in order to proving the proposed Proof-of-authority model is trusted. It's better to prepare the simulation results / experimental results 2) I found some spell mistakes and some phrases are grammatically incorrect. Authors are required to review English language before publication 3) Figures are not visible (Text is not readable)	
Optional/General comments	Nil	

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
