PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Spelling mistakes were detected ("binanry", "futural", "parcent", ...)</p> <p>Grammar check recommended (expressions like "is well enough", "For demonstrating", "one of the most popular algorithm" are incorrect)</p> <p>The structure of some sentences could be improved (for instance, "Fourthly, the cascade grouping. It consists of..." could be just "Fourthly, the cascade grouping consists of..."; "from the above result, it can easily state that" could be "from the above result, it can be easily stated that...") or are redundant ("For the implementation, it has been stated earlier LBPH algorithm has been used.")</p> <p>Histograms of gradients are mentioned in a redundant expression ("HOG histogram") and never explained. At least a reference to the original work would be helpful.</p>	
Optional/General comments	<p>Haar cascade classification and the LBPH algorithm are mentioned in section 1 before explaining them. Consider reorganizing the text or adding "explained in section 2.1".</p> <p>Figure 1 does not add any relevant information, consider removing it.</p>
