PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	The introduction is mixed with the methodology. There are some gaps that need to be adjusted, such as: Explaining more about the extract used and medicinal characteristics. Also, there was no mention of the use of rats in studies like this one. In the methodology, how many rats were male and how many were female? How were the doses administered to the animals determined? Was it based on any evidence?	
Optional/General comments	The manuscript presents interesting findings for the study area, and may contribute with innovative methods for the treatment of gastric diseases.	

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
