

Review Form 1.6

| | |
|--------------------------|--|
| Journal Name: | International Journal of Environment and Climate Change |
| Manuscript Number: | MS_IJECC_84271 |
| Title of the Manuscript: | Efficiency of Vetiver zizanioides and Vermiculite in Coir Wastewater Treatment |
| Type of the Article | Original Research Article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| <u>Compulsory</u> REVISION comments | | |
| <u>Minor</u> REVISION comments | The description of pilot scale is clear however the title of the manuscript is about efficiency – pls add some more information about economic and environmental effect not only about physico-chemical parameter. As you mentioned in the introduction – you need solution of low-cost and effective – could you also provide more information about the emission and waste after a proposed process - would it be possible to show all input and output (mass balance) for proposed solution – if not try to identify the barriers and challenges. | |
| <u>Optional/General</u> comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
