<b><u>Compulsory</u></b> REVISION comments		
<b><u>Minor</u></b> REVISION comments	<p>Please check again the text in English – some connection words are missing. (Ex: "Vegetation plays <b>an</b> important role in the global carbon cycle by sequestering a substantial amount of CO<sub>2</sub> from the atmosphere. Thus, creation of new plantation on degraded areas is <b>a</b> better option for carbon storage") Similar, some of the sentences makes no sense as they are (ex: "As some part of carbon stock appears as run-off in rivers and finally goes to reservoirs and lakes where it is degraded via aerobic/ anaerobic degradation into GHGs which are emitted to atmosphere, thereby causing global warming and climate changes")</p> <p>Suggestion: use "t C/ha" instead of "tonnes of carbon/ha".</p>	
<b><u>Optional/General</u></b> comments
