

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_84477
Title of the Manuscript:	Performance of Browntop millet ( <i>Brachiaria ramosa</i> L.) under varied spacing and fertility levels
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<p>This article complements the series of articles devoted to research on browntop millet which is a warm season crop and can produce heavy seeds compared to other millets. This crop grows in a variety of soils and climates. Brown head millet provides almost all essential nutrients. This study allowed The spacing of 45 cm x 10 cm demonstrated its significant dominance with plant height, number of tillers, weight of 1000 seeds, grain yield and straw yield compared to other spacings tested.</p> <p>The bibliography is updated and has 12 bibliographical references, of which 25% are from the last 5 years, which in the opinion of this humble servant it is suggested to update the bibliography, taking into account these observations the article is relevant for its publication.</p>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
