

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_84616
Title of the Manuscript:	EVALUATION OF PROMISING RICE GENOTYPES FOR STABILITY BY AMMI ANALYSIS
Type of the Article	Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Discussion is very poor. Please infer the results and speculate according to your findings and in relevance to previously published data. Draw conclusions, give recommendations, and provide shortcomings of the study applied. It is difficult to accept the discussion section in present form.	
Minor REVISION comments	Abstract: significant difference was observed... please correct Please check the whole manuscript carefully. There are numerous grammatical mistakes.	
Optional/General comments	Overall study design is good and can be published after improving the grammar and discussion of the manuscript. I'll again review the manuscript after revision and then can make a decision.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
