

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_84628
Title of the Manuscript:	Productivity, potentiality and soil-site suitability evaluation for rice crop in the Moridhal watershed of Dhemaji district of Assam
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The abstract must be improved. In the abstract you should clearly state the problem you want to solve, then the objective of the work, then the methodology used to achieve the objective and finally the results	
Minor REVISION comments		
Optional/General comments	Overall, the topic is a timely one, as rice production remains a problem for many developing countries. The materials and methods used are appropriate for this study. The discussion is well covered, with even some possible solutions to the problem of poor soil quality. The majority of the references are recent and appropriate.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
