### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"><li>1. The abstract has been written in blocks under headings. It should be written as one unit introducing your topic, highlighting the research gap (missing piece in the existing relevant body of literature), main aim, a brief description of the methodology, key results and findings, key conclusions, and key recommendations.</li><li>2. Inconsistency observed Maintain consistency throughout the whole manuscript. In some paragraphs you used percent while in some other you used (%).</li><li>3. Expand sections 2.2 of the experimental design and 2.5 of the statistical analysis to make clearer and informative. These two sections are very important and need to be well presented to make sure that the results and findings are not biased.</li><li>4. Lack of recommendations. Add a section where you present some recommendations that pave the way for future research works.</li><li>5. All results are presented in tables. It would be good and useful to demonstrate some results in charts.</li></ol>	
<b>Minor</b> REVISION comments
