PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. All background statements in INTRODUCTION are written with minimum citations. I recommend author(s) to support the views with suitable evidences/citations.2. Recent evidences regarding IFS may be included in the paper3. Socio-Demographic profile of the farmers may be included, which will add more validity in discussion part4. Give scientific reason/probable reasons for the observations of BCR of identified farming systems5. Authors have hardly used literature citations for supporting or contradicting the findings6. Findings of the study is well written, valid discussion of the findings is lacking7. Conclusions needs be robust by including policy interventions	
Minor REVISION comments	<ol style="list-style-type: none">1. Uniformity in writing two decimals (Ex. BCR -2.02) may be followed and the numbers in the table may be aligned properly2. Higher BCR of different components of identified farming system may be highlighted3. Reasons and constraints in IFS may be included, if data is collected4. Systematic diagrammatic model of different components of identified farming system may be attempted	
Optional/General comments	Overall Good research paper for policy interventions
