Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_85853
Title of the Manuscript:	Relationship Between Weather Variables and The Corynespora Leaf Spot Disease in Soybean
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of 'lack of Novelty', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(https://www.journalijecc.com/index.php/IJECC/editorial-policy)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Comments are being added in the main text. Author is requested to see and rectify accordingly.	
Minor REVISION comments	There is room for more References to be included. Arrange according to the APA style.	
Optional/General comments	The incidence and identification of pathogen claimed is not reported anywhere in the manuscript. I suggest to write a portion in methodology about the identification of pathogen. Also figures and pictures of leaf spot on soybean are missing. Addition is required. No mention of Competing Interests by the authors. Thus they are advised to incorporate this section.	

PART 2:

		Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
