Manuscript Number:	Ms_IJECC_86375
Title of the Manuscript:	Effect of herbicide on physiology and biochemical properties of purple nutsedge (Cyperus rotundus L.)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. The data in Table 1 is troubling. Data should be re-examined. 2. The objectives of the study should be specific and should be mentioned in the introductory section.	
Minor REVISION comments	1. The author uses only a herbicide, so the title should specify that herbicide. 2. The author should use the same indicator in both the "method and materials" and the "result and discussion" sections.	
Optional/General comments	1. Repetition has been observed in the conclusion part. concluding briefly by avoiding it.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
