Review Form 1.6

Journal Name:	**International Journal of Environment and Climate Change**
Manuscript Number:	**Ms_IJECC_89961**
Title of the Manuscript:	
	Climate driven responses in Cocoa for Tamil Nadu
Type of the Article	**Original Research Article**

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty'**, provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(https://www.journalijecc.com/index.php/IJECC/editorial-policy)

PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The purpose and conclusions of the paper seem self-evident: Cocoa crops grow better when weather conditions are optimal. Also, "…requires suitable management measures for sustainable cocoa productivity."** **This does not detract from the value of the research, but the paper would have greater impact if the author(s) had stated in the introduction just what they were investigating, and why it was important.** **The Conclusion section merely restates/summarizes the data from the paper. It does not really address the potential significance of the data or of the investigation.**	
Minor REVISION comments	**Close and careful editing is necessary to ensure correct spelling, agreement of subject and verb, insertion of missing word(s), etc.**	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
