### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	1. Discussion needs to be elaborated. 2. Mechanism of how melatonin rise can result in syncope mentioned but no blood pressure variation was noted in the patient. 3. History of the patient also needs to be explored into. Did the patient have any sleep disturbance on the day prior to syncope etc	
<b><u>Minor</u></b> REVISION comments	The format could be more structured with signs and symptoms and the progress of patient mentioned in detail	
<b><u>Optional/General</u></b> comments	Being a case report a detailed history and examination details etc could be included so that it can be of help to another researcher faced with the same type of problem.	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
