PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The introduction is nor written well. It lacks detail information on previously findings, research gab and how the current study will address this gab.</p> <p>The methods and material section are poorly presented. Thus, major modification is required (please refer detail comments and suggestion from mother document).</p> <p>Result presentation is not clear and it important findings were not included. For example, contribution of each descriptor for each PCA</p> <p>Dendrogram tree,</p> <p>Noting is discussed here not the author should include the discussion</p> <p>Revision is needed for conclusion based on your key finding</p> <p>The reference is outdated the author should update as there is many recent research reports on the same title conducted especially from India</p>	
<u>Minor</u> REVISION comments	<p>Typographical error,</p>	
<u>Optional/General</u> comments	<p>The manuscript provided useful information. However, major modification are required before a possible publication. Otherwise, it diminishes the quality of the journal and may not get sufficient reader</p>
