Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_84506
Title of the Manuscript:	Genetic variability studies for yield and its attributing traits in Dark Brown Sesame (Sesamum indicum L.)
Type of the Article	Original research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of 'lack of Novelty', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(https://www.journalijpss.com/index.php/IJPSS/editorial-policy)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	A brief of the methodology should appear in abstract. Important results also should feature in the abstract.	
	The introduction has no problem statement or clear research justification. It is also disjointed.	
	Methodology: Why no replication was adopted on the field was never mention? I think this kind of experiment should have replications in order for the results to be reliable.	
	Discussion did not emphasize the implications of this level of variability for different traits on plant breeding programs.	
Minor REVISION comments	My comments above should be addressed. Other suggestions are included in the paper.	
Optional/General comments		

PART 2:

		Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
