PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	The present manuscript is interesting, scientifically robust and technically sound. **Abstract** is clear, informative, brief and representative of the work and underlines the significance of the subject. **Introduction** is understandable and comprehensive exposing the topic to the reader. Purpose and objectives are clearly formulated and scientifically appropriate. The **"Material and methods"** used are accurate and correctly described. So described they allow experiment to be reproduced. Appropriate statistics was used. The **results** are interpreted exhaustively and clearly. They are discussed and compared with previous researches on the same topic. The findings are particularly valuable having in a mind importance of the crop studied. There are some inaccuracies and technical errors in "Results and discussion" section, which I have indicated in the applied file. **Conclusions** are based on the data, presented inside the manuscript. There are 57 **references** cited, which are relevant and adequat.	
Minor REVISION comments		
Optional/General comments
