<mark>PART 1:</mark> Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*

Compulsory REVISION comments	**Major comments:**
	  1. The author should provide more detail in the traits determining in the section of Materials and Methods;
	  2. The author should combine the related tables such as Tables 4, 5 and 6 to show the data.
	  3. In Table 9 and 10, the author should provide the ANOVA results.
	  4. The section of discussion is too short and the author should add more information and compare the results with other papers.	

Minor REVISION comments	The language can be improved.	
Optional/General comments	This study compared the yield and eight traits among different barley genotypes under different water conditions. It provides some valuable information and deserved publishing.
