

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_89103
Title of the Manuscript:	“EFFECT OF NANO FERTILIZER ON GROWTH, YIELD AND QUALITY OF OKRA (<i>Abelmoschus esculentus</i>)”
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The manuscript presents results from only one environment. The results should be discussed and recommended very carefully as the results are from a limited data. Please address this limitation in the discussion.</p> <p>The materials and methods section does not clearly describe how the measurements were taken, how the data were analysed (statistical methods).</p> <p>It does not mention enough about “nano fertilizer”. Please describe its name, brand, company etc.</p> <p>There a lot of statements in the results and discussion which need references. Please revise the section thoroughly and cite the references from where you got those information.</p> <p>The tables need a footnote describing what S, CD, CV etc are. I know what they mean but better to put them in the footnote or table caption.</p> <p>It is interesting to see that T2 was best of growth, yield and quality traits. The manuscript does not discuss enough why T2 was so good for all the traits.</p>	
<u>Minor</u> REVISION comments	<p>I would recommend to put the list of treatments in a tabular form so that it is easy to comprehend.</p> <p>There are several grammar and punctuation errors.</p> <p>Please find more literature related to your study.</p>	
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
