PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>Abstract, paragraph 4, line 1-2: it is true that LON could appear several months after completion of therapy, however timing of LON onset should be specified. LON is more common in the first year after completion of Rituximab and its incidence rate decreases after this period.</p> <p>Case report, paragraph 4, line 5-6: if the diagnosis is neutropenic fever, Meropenem dosage indicated is of 500mg/1000mg every 8h. In case of protocols specific for a particular Institution, this choice should be specified.</p>	
<u>Minor</u> REVISION comments	<p>Introduction, paragraph 9, line 4: minor orthography issue.</p> <p>Case report, paragraph 2, line 1: minor grammatical issue.</p> <p>Case report, paragraph 4, line 8-9: please rephrase.</p> <p>Discussion, paragraph 2, line 1-2: please rephrase.</p>	
<u>Optional/General</u> comments	<p>Case report is well constructed and very interesting. Reports of cases of rare diseases and complications are useful in clinical practice to help colleagues to face this conditions.</p>
