Title of the Manuscript:	POLYMERASE CHAIN REACTION IN AFRICAN RESEARCH SETTING: OPPURTUNITIES AND LIMITATIONS
Type of the Article	Opinion Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijtdh.com/index.php/IJTDH/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">- Many paragraphs are left without appropriate citation.- In the introduction, many sentences are identical to those used in abstract.- Under principle of PCR section, figure 1 should be figure 4. Figure 4 has poor resolution.- I would recommend to check manuscript for potential plagiarism	
Minor REVISION comments	<ul style="list-style-type: none">- In the abstract and in introduction, I would suggest changing "The advent of COVID-19 in the past few years" into "The advent of COVID-19 in the last two years".- For figure 1, I think it is just a picture and not a diagram.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
