PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The case history is well written with both positive and negative symptoms. It was highlighted as per other studies that there is no remission of schizophrenia. It needs to be managed. I totally agree with the author. Though early on set is rare, it is a fact in schizophrenia patients. The author has identified an interesting and important fact.	
Minor REVISION comments	The grammar or sentence construction may be improved.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
