<b><u>Compulsory</u></b> REVISION comments	Interesting paper looking at cardiac markers and autoregulation disruption following neurotrauma. Several key references are lacking and must be included. First, must address calcium channels PMID: 29951646, second need to address PKC PMID: 25301233, finally need to address markers for repeat injury PMID: 23335911.  If the above references included and paper broadened accordingly, could be of interest to the general audience.
