**PART 1: Review Comments**

|                                     | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| <b>Compulsory</b> REVISION comments | The paper studies the anti-cirrhotic effect of aqueous extract of the leaves of <i>Mearua angolensis</i> on induced cirrhosis on gross appearance of liver of wistar rats. Liver Cirrhosis are becoming a serious problem worldwide, being responsible for a huge amount of death. The bead bean tree <i>Mearua angolensis</i> is used in indigenous systems of medicine for the treatment of liver disease. The author observed that with treatment, groups have liver with significant improvement. |   |
| <b>Minor</b> REVISION comments      | Article contains minor punctual inaccuracy.   |   |
| <b>Optional/General</b> comments    | The topic is timely and will be of interest to the readers of the journal. There is a real need for a full characterization of <i>Mearua angolensis</i> plant species and for the development and application of technologies for the production of <i>Mearua angolensis</i> -based drug.   |   |

**PART 2:**

|  | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) |   |
