SDI Review Form 1.6

**PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)																				
<b>Compulsory</b> REVISION comments	<p>*The work seems to be important, and robust, however, for me as a microbiologist and phytopathologist I found that the manuscript lack of some information. In case of the evaluation a fungicide we always pass through <i>in vitro</i> trials, to have an idea of the capacity of the later of the inhibition of any pathogen, to do the <i>in vivo</i> trials then the field trials ... the work lack of that unfortunately.</p> <p>*Please mention the active ingredient not the commercial product, we are not promoting any commercial products. For that the title also need to be revised</p> <p>*How did you know that the pathogen you work on are Alternaria and Cercospora, you did isolate them or identified them to correlate the disease to the pathogen please to clarify.</p> <p>What formulat you have used to transform % to arcsin ??? I verified your table using this formulat and I found some varieties =DEGRES(ASIN(RACINE(pourcentage/100))) (the fomulat is in french)</p> <table border="1"> <thead> <tr> <th></th> <th>table 1</th> <th></th> <th></th> <th></th> </tr> </thead> <tbody> <tr> <td></td> <td>0,82</td> <td>6,53</td> <td>10,5</td> <td>16,23</td> </tr> <tr> <td>What you have mentioned</td> <td>4,93</td> <td>14,79</td> <td>18,89</td> <td>23,76</td> </tr> <tr> <td>What I got using the right formulat</td> <td>5,19547055</td> <td>14,8055048</td> <td>18,9072443</td> <td>23,7573899</td> </tr> </tbody> </table> <p>*Please to see my other comments on the Ms</p>		table 1					0,82	6,53	10,5	16,23	What you have mentioned	4,93	14,79	18,89	23,76	What I got using the right formulat	5,19547055	14,8055048	18,9072443	23,7573899	
	table 1																					
	0,82	6,53	10,5	16,23																		
What you have mentioned	4,93	14,79	18,89	23,76																		
What I got using the right formulat	5,19547055	14,8055048	18,9072443	23,7573899																		
<b>Minor</b> REVISION comments	<p>*Language needs to be improved, Short form should be describing and add a line of conclusion / future prospects in abstract.</p> <p>*You should verify the reference as suggested by the journal. I see that you used few you should add more according to your work and add newer one 2018-2020</p> <p>Please to see my comments on the MS</p>																					
<b>Optional/General</b> comments
