Review Form 1.6

Journal Name:	**Journal of Advances in Biology & Biotechnology**
Manuscript Number:	**Ms_JABB_84493**
Title of the Manuscript:	**Chromosomal Engineering through CRISPR–Cas Technology: A way forward**
Type of the Article	**Review Article**

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty'**, provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	The section of the body should be rearranged like this manner. Abstract, introduction, potentials of restructuring the plant chromosome, induction of reciprocal translocations in plants, reversion of natural chromosomal inversions can restore genetic exchange in recombination-dead regions in plants, crispr–cas-mediated crossover, induction of reciprocal translocations in plants, manipulating dna repair pathways to break genetic linkages in plant breeding and the creation of synthetic chromosomes and new plant species. Add the concluding section	
Minor REVISION comments	All the key word need to reflect in introduction section	
Optional/General comments	Whole body	

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
