Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	1. In the ABSTRACT part, the expression of the results is too general, and not very clear, and the abstract should be in one paragraph. 2. In the INTRODUCTION part, what's the organic protection system? and there were other similar studies? The meaning of your work also need be clear. 3. In the MATERIALS AND METHODS part, the conventional pesticides, biopesticides and natural preparations should be detailed, including Ingredients and manufacturers. A season repeat should be added. How get the crop disease, inoculation of pathogenic bacteria or natural disease? Which disease? These question needed been described detailly. 4. In the RESULTS AND DISCUSSION part, there are so many treatments, and make reader confused. Table 2 and table 3 can be integrate into one table. What's the difference between K-I and K-II? the discussion is insufficient and mostly is the description of data. Add the convictive discussion is necessary. 5. Statistical analysis is missing in all the tables and figs in this manuscript.	
Minor REVISION comments	6. There are many format mistakes, like "variety of cucumber „Dugi zeleni (eng. Long green)", and need check total the article one by one.	
Optional/General comments		

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
