PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**I believe this is essential research. I do however have a problem with seemingly no repetitions? Unless I missed something, I only saw ONE sample from each of the sites. Surely to draw valid conclusions there should have been repeat samples taken at all the sites?** **Then, the keep to one format. The journal's guidelines (which I did not study) should be followed. American or British English? There are many differences, some of which I pointed out. But it cannot be both. SI units – kg and not Kg. Space between number and unit except %.** **The reference list is not complete. There is also no uniformity in format. Please refer to my comments on the paper.**
