

## Review Form 1.6

Journal Name:	<a href="#">Journal of Advances in Microbiology</a>
Manuscript Number:	Ms_JAMB_84805
Title of the Manuscript:	Molecular epidemiology of carbapenem-resistant Acinetobacter baumannii isolates in a Senegalese university teaching hospital
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamb.com/index.php/JAMB/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>There is novelty in the work and the author have done good work in the manuscript. However, some point were raised and should be address by the author of the manuscript.</p> <p>The molecular analysis was well presented though there is need to present the picture of the gel used in the PCR analysis.</p> <p>In the result presentation, it is more appropriate to present only the number and percentage n(%) of positive cases since the value for confidence interval (CI) is presented in the table that was explained.</p>	
<b>Minor</b> REVISION comments	It is recommended to minimise repetition of you result especially in the discussion part of the manuscript.	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
