PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Please note that the blue colour is for deleting of words, while the red colour is for correction.</p> <ol style="list-style-type: none">1. The introduction is weak and language check along the manuscript is very important. The most weakness sentences are underlined.2. The ANOVA test didn't mention in M&M.3. Please take care with all the comma added.4. The same numbers in Figures 7&8, 12,8 – 14 – 50 – HOW??5. The results and numbers in Figures 10&11 are the same. The two figures are copy, not logical at all.6. The discussion is so weak, PLEASE review and check language. <p>Overall, depth of research and contribution to the field of this article is low.</p>	
Minor REVISION comments	-----	
Optional/General comments	-----	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
