PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This is an interesting case report to analyse factors influencing urinary incontinence, the effects of core muscle strengthening on urinary incontinence, and clinical conditions associated with urinary incontinence. However, authors may consider making suitable changes in the comments below. 1. Please provide the results of the electrophysiological study to indicate the severity and causes of sciatica. 2. Please provide the results of the urodynamic study to indicate the severity and types of urinary incontinence. 3. Please provide IRB approval number of this case report.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
