<u>Minor</u> REVISION comments	This is a very well-written and interesting paper. It is educational and, in my opinion, provides important information. I just have a few questions. You state she was obese but don't give a BMI An O2 sat of 91%. Do you think an ABG or at least an PAO2 is important? 'High resolution CT-Scan (HR-CT-Scan) of chest showed radiological criteria of severe COVID-19 infection.'.....Is an image available? Did she have pneumonia?
