### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy> )

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	After reviewing this research article it is found that researcher has discussed the perception of HIV/AIDS among tertiary education students and their willingness to take the HIV test. Further researcher has given sound research work done by various researchers. However it is found that hypothesis are missing also Criteria for selection of sample is not mentioned clearly. Third researcher should pendown the suggestion too. So on the basis of my review I suggest the researcher to mention these things after that paper should be published	
<b>Optional/General</b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	Researcher have mentioned that this work is done under ethics
