PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Authors could explain why only 83 patients were selected for the study and also why only 2 years were selected and not longer. If the inclusion period of study could be 5 years – the numbers of patients for the study would be larger and hence, perhaps the results may be more valuable and significant Authors can attempt to discuss further the cons of their paper and perhaps the reason behind the lack of significance of their results	
Minor REVISION comments	Kindly review the English grammatical and spelling errors. To also pay attention to the sentence structure.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
