### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>The paper is well written, deals with an interesting subject. Introduction, case report and discussion are clearly presented, the conclusion is appropriate. The case report is well documented by the presented figures. References are appropriate within the subject of the case report.</b>	
<b>Minor</b> REVISION comments	-In the section CASE REPORT it was stated that the patient " was well dehydrated"- did you mean well hydrated instead? -In the neck examination, in the same section, it would be useful to add that no emphysema and laryngeal cartilage crepitus were noticed -references 9 and 10 should be more accurately listed (the part after the year of the publication), and check other references according to the journal instructions to be more uniquely listed Figures 3 and 4 could be of better quality if possible	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
