PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | In present work authors studied asymmetric dimethylarginine level in children undergoing bone marrow transplantation. The serum level of asymmetric dimethylarginine in children underwent bone marrow transplantation was assessed. Based on research findings authors concluded that elevated ADMA level after bone marrow transplantation indicates that endothelial dysfunction is a main complication in those patients. | |
| Minor REVISION comments | Page2, Line10: "avalabilit" change to "availability" | |
| Optional/General comments | No | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
