PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	1. This study is only a literature study, all the statements written are from the related references, there is nothing that needs to be proven. 2The author describes the pathophysiology of the immune system in general and does not focus on how the HPA Axis-specific cellular mechanisms relate to COVID-19 2. There is no statement about how strong the role of Dexamethasone, IL-6, LTB4 in relation to the pathogenesis of Covid	
Optional/General comments		

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
