Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	- **The manuscript is well structured** - **However, It needs many improvements:** - **The abbreviation Arbuscular mycorrhizal fungi (AMFs) is cited in the introduction part (it is unnecessary to use another abbreviation AM in the part 3.2)** - **There are many sentences in th nanuscript very long → to simplify** - **I highlighted in the manuscript "according to" four times, it is better to write according to "the author et *al.,* "and to cite the reference in the end of the sentence** - **I think it is necessary to include photos of these plants Caatinga and these Arbuscular mycorrhizal fungi to better illustrate what is written** - **And why not if possible a table summarizing the studies used as references according to the species of AMF described, to the country, year...** - **The aim of your work is to discuss the importance of AMF in development and conservation of Caatinga Plant However in the part 3.2 there is no argument of that ; you describe the implication and the benefits of AMF in general without liaison with Caatinga Plant** - **And you have concluded without a good argumentation in discussion** - **References should be checked according to the style recommended by the journal**	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
