PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>L = line</p> <p>Abstract</p> <p>L11: "Sex of pig farmer" -> the authors used "gender" in L73 (Metodology), I think "gender" is more appropriate.</p> <p>Introduction</p> <p>L24-25: What does "DM" mean? Dry Matter? Please specify.</p> <p>L37: "to anpleasant odour" -> unpleasant</p> <p>L52: "contribution to our knowledge" -> do not use "our", be impersonal</p> <p>-> I think pig farming is a very profitable economic activity in some places. The authors could check this information and write it in the introduction.</p> <p>Material and methods</p> <p>L74-75: "The questionnaire was transmitted to farmers who could not read or write in their native language, and their responses were recorded." -> I could not understand how the questionnaire was applied in this case. Please rewrite the sentence and be clearer.</p> <p>L79-80: "participation was encouraged by the promise made during the pilot survey that the researchers would provide veterinary services to the farms after sampling" -> Strange. Can this tradeoff cause the research to be biased?</p> <p>L107: "unless we impose" -> do not use "we", be impersonal</p> <p>L112: the number (2) in the end of the sentence, in L105 and L115 number (1) and (3) are after the equation</p> <p>L117: "poultry management activities" -> poultry?</p> <p>L149-150: "Most pig farmers' households were between 6-10 sizes" -> I didn't understand this sentence. Please rewrite.</p> <p>L159-160: "plateau" -> Plateau</p> <p>Table 2: "pig barn" in the title and "Pigsty" in the column 1. -> Use the same term, don't change.</p> <p>L160: "Pigsties", column 1 of table 2: "Pigsty" -> Use the same term, don't change.</p> <p>L160-161: "semi-improved", column 1 of table 2: "Semi-enhanced" -> Use the same term, don't change.</p> <p>L172 "heaps", Column 1 of table 3: "On the ground" -> Use the same term, don't change.</p> <p>-> for all tables check if the terms in the table are the same terms used in the text, do not change as showed above.</p> <p>Table 6: "sex" or gender?</p> <p>L247: "plateau" -> Plateau?</p> <p>L271: "we have identified" -> don't use "we", be impersonal</p>
