PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<ul style="list-style-type: none">The aim of the research is clear and the main article matches the abstract. However, it is not very clear what the study found. Therefore, I suggest writing the research result.I suggest make a proofreading for all manuscript since there grammar mistakesThe number of references is not adequate. Thus, recommend increasing it citing 2021 & 2022 papers.	
<u>Minor</u> REVISION comments	<ul style="list-style-type: none">It would be better to add work process or flow chart for research design.The conclusion answers the aims of the study and is supported by results, but it is missing future work. Therefore, it would be better to inform future research opportunities.	
<u>Optional/General</u> comments	<ul style="list-style-type: none">The manuscript need to address the review comment before publication	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
