<b><u>Compulsory</u></b> REVISION comments	<p>The topic of research is an interesting one and the researcher tried to present the true situation which calls for commendation. However, the researcher need to carryout some minor reviews .</p> <p>1. The indicated areas in red should be deleted and those in blue applied.</p> <p>2. This study will make a better reading if the author could take time to create another sub-heading; 'Data presentation and analysis before the sub-head 'Discussion of findings'. This is because the work seems to be over clustered making the reading so boring. In trying to substantiate the findings, the author should not go on citing all related findings in their full state. Let them be mentioned.</p> <p>3. The analysis of hypotheses in the area of collaborating findings involves a lot of literature review like citations. After first collaborating citation other related ones should be mentioned.</p> <p>4. The author should provide answer to the 'How' To enhance academic performance, strategies to minimize students' involvement in fishing and to increase their participation in school should be put in place. (see main text).</p> <p>5. The author should come up with workable recommendations. based on the findings.</p> <p>6. Generally, the author(s) should check the use of tenses.</p> <p>7. The author should as well cross-check the references more so in the citation of Theses and Dissertations.</p>
