

**Review Form 1.6**

Journal Name:	<a href="#">Journal of Complementary and Alternative Medical Research</a>
Manuscript Number:	Ms_JOCAMR_83572
Title of the Manuscript:	Aqueous Hypoestes rosea Leaf extract Ameliorates Lead-Acetate-Induced Thyroid Hormones Disruption in Albino Wistar Rats
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal’s peer review policy states that **NO** manuscript should be rejected only on the basis of ‘**lack of Novelty**’, provided the manuscript is scientifically robust and technically sound.  
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

	dose dependent manner. This increase might be due to the antioxidant property of AEHR, as hyperthyroidism and hypothyroidism are associated with oxidative stress in human and animals. More so, experimental data have shown that many flavonoids could inhibit thyro-peroxidase activity thus increasing TSH.-----this paragraph was repeated two times in discussion	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<p><b>General note:</b></p> <p>1- Some of symbols must be write in same way Like (<i>p</i>) for significant not like p or P ; (mL ) not ml and so on .</p> <p>2- The writing language is good grammatically and some vocabulary is not corrected.</p> <p>3- The proportion of modernity in the references is very law. So, must be use some of new research during 3 years ago</p>	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
