## Review Form 1.6

### **PART 1:** Review Comments

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<p>Abstract section</p> <ul style="list-style-type: none"><li>- Explain what PC and EC represent</li><li>- Explain AEHR</li><li>- "The animals were divided into 26 groups (6 post-treatment and 6 pre-treatment groups for female rats and the same number for male rats)" - What about the control groups? Please present the complete information.</li></ul> <p>Introduction</p> <ul style="list-style-type: none"><li>- "asHypoestes roseaBeauv" – please correct</li><li>- "Janardan, [15]" – please delete the comma</li><li>- "The aqueous extract for the experimental animals was prepared according to the organization of economic corporation and developments guideline [16], using the calculations based on the method of [16]." – put the reference at the end of the paragraph</li></ul> <p>Material and methods</p> <ul style="list-style-type: none"><li>- Experimental animals section - You should present the dark/light cycle you have used</li><li>- Grouping and treatment – "previously acclimatized for two weeks" – you have already presented that</li><li>- Maybe you can present the grouping through a flowchart for a better understanding</li><li>- "(ELISA technique as described by the manufacturer. Product Code:1325-300. Principle" Here are some missing information and a comma</li></ul> <p>Results and discussion</p> <ul style="list-style-type: none"><li>- "More so, experimental data have shown that many flavonoids could inhibit thyro-peroxidase activity thus increasing TSH."</li><li>- Some paragraphs should be rewritten in order to avoid repeating words</li><li>- "The result of our study also showed that the administration of AEHR to the female albino rats post-treatment with the AEHR at the acute phase showed a statistically significant dose dependent increase in the mean serum level of the female albino rats" – delete "female albino rats" at the end of the paragraph</li><li>- "More so, experimental data have shown that many flavonoids could inhibit thyro-peroxidase activity thus increasing TSH." – What experimental data? Please make some references</li><li>- "The result of our study is in agreement with Sujatha et al. [21]", here the reference number is 21, then you say that it is 11, "Sujatha et al. [11] who in their study". However, the reference number 11 is actually this: "SAALU, Linus Chia. Nigerian folklore medicinal plants with potential antifertility activity in males: a scientific appraisal. Research journal of medicinal plants, 2016, 10: 201-227." Many of your discussions are based on this reference, by Sujatha et al. [11], so, required corrections should be performed.</li><li>- Any reference should be placed at the end of the written paragraph – please correct that in your manuscript.</li><li>- Please insert references for any paragraph that is not your own original idea.</li></ul> <p>Conclusion section</p> <ul style="list-style-type: none"><li>- Please rewrite in a more elaborate way.</li></ul>	

**Review Form 1.6**

<b>Minor</b> REVISION comments	presented before	
<b>Optional/General</b> comments	-	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
