PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In general, the manuscript is well done the objectives of the study are clear and results respond to these. But the table 1 with the description of the characteristics of the patients in the study in my opinion need to modified. The result is adequately described, there is no redundancy between tables and text.	
<u>Minor</u> REVISION comments	Please represent better the table 1, mean age value is request, report the percentages in all value of table 1. Please can express time in months for the curve of Kaplan-Meier? In figure 2 legend you mean not statistically significant?	
<u>Optional/General</u> comments
